### SILENI NANO

Our super premium range for everyday drinking. The Sileni NANO range is based on rich, soft and approachable hand-crafted wines.

### Vineyards

Pinot Noir is sourced from Sileni's Hawke's Bay vineyards with a range of soil types including gravels, silt and clay loam. The different characteristics of these sites provide depth and complexity of flavour in the wines.

### Winemaking Notes

Fermented in closed top stainless steel tanks with gentle maceration to extract colour and tannins, the wine then completes malolactic fermentation prior to maturation in the cellar. It receives a light fining prior to bottling.

### Tasting Notes

The Sileni NANO Pinot Noir has concentrated black cherry and dark berry aromas which follow through to the palate where dark berry-fruit and cherry flavours are supported by soft tannins. Recommended serving temperature 16-18°C.

### Food Match

Hearty pastas, duck and New Zealand lamb.
